## **Course description**

### **Course overview:**

This course is designed for graduated students enrolled in the Department of Physics. The course will help students at both basic and intermediate levels develop their foundation of Japanese language skills and understand Japanese society and culture, thereby allowing them to adjust to the life in Japan. The students will practice basic grammar from 12:30 ~13:30 and Speaking and writing on the topic of the day from 13:40 ~14:45.

### **Daily preparation and review**

Homework will be assigned for every lesson: Grammar Reviews for students at the basic level. Essays for students at the intermediate level.
