

## Student Support Office

The Student Support Office is located on the first floor of Science Building 1. We serve both Japanese students and international students.

You are welcome to talk about anything. For further details, you can check our website. We have been helping students with their study, family/friend relationships, daily life issues, physical, and mental health issues, and many other matters. If you desire, we are also able to introduce and collaborate with professors to give you the best support.

You can make a reservation through our website, email, or by phone, or just walking in. It is free service and every session is 50 minutes.

Your private information will be kept strictly confidential and will not be given to anyone else except in the case of an emergency situation.

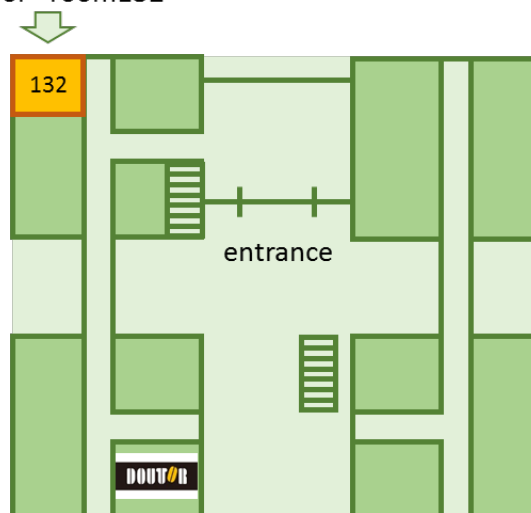

If you have any questions or any information you wish to confirm, please feel free to email us.
